

Oldman Dam Association

P.O. Box 717
Fort Macleod, AB T0L 0Z0

The Oldman Dam Association (O-DAM) was formed by a group of property owners who were affected by the June 2013 release of water from the Oldman Dam. This group believes that much of the damage and stress experienced as a result of the released high water volume could have been avoided through improved communication with the residents living below the dam and affected areas of Willow Creek, and, with changes to flow management guidelines of the dam.

MEMBERSHIP APPLICATION 2014
